Dear Sir, §1. Thank you for publication of 23th June 05. Unfortunately, strangely, in publication there were no corrected (but important) pages with TOO SURE SLIPS with replaced pages 82 and 87. Also there is no replaced pages 92, 93, 96-98 with TOO SIMPLE adaptation of international claims 3-5, 7-9 and 11 to US Rules (only without "and" but without any other changes). You certainly received all these pages even several times (What could I do more, for such, exemplary for World, Office according to his famous Director, named by President!!!) (For instance, you received them with ORIGINAL "Chronopost" sent 11th AUG.04 with cheque for \$460, that USPTO cashed too evidently de facto. ("Chronopost" was received with week delay because only of precise US Post)). Justly these data justly important for CONFIRMED execution of solution of AIDS (real stopping of 8000 deaths per day!). Thank you for sure understanding of urgency of this knowledge for World.

§2. I repeat that the exemplary (for others) USPTO never answered for VERY important (for procedure) § 5 of my ORIGINAL Covering letter dated as 11th August 04 (see for instance copy of my e-mails of 30th April 2005). Thank you in forward to mention this VERY Important answer. Sincerely yours
Dr.Y.Zagyansky
